layor of Cleveland Threatens to Arrest the Spectators.

The Senators and the Spiders May Have to Deal With the Entire Police Force.

Cleveland, Onio, May 14 .- Although Presilent Robison declares that there will be no trouble at League Park on Sunday, even though arrests are made, many wisc precautions will be taken. The director of police has threatened to send the entire force to arrest the employes, and the mayor has stated that the audience, too, would be taken into custody.

As there will be excursions from all the neighboring towns, and the crowd will undoubtedly be in the neighborhood of ten housand at least, the police will be pretty busy. The mayor's threat is regarded as a bluff, but he insists he will call out the militia if it is necessary to enforce the law, and he maintains that it is breaking the law to attend a game of ball on Sunday. In spite of his confidence that no trouble will result, President Robison will have all the movable chairs in the boxes No pop will be sold on the grounds, and even custions will be dispensed with so that nothing throwable or clubable will be

A late issue of the Farmers' Union has an editorial upon "Coffee and its effects on health and public interests." The paper strongly urges upon the notice of its of millions of dollars annually to send to foreign countries for a product that is one of the prime causes of the increase in nervous diseases in America today and states that a well-informed physician on tomach and nerve allments has, after a year's experiment, produced a deilelous beverage from American cereals, wheat, etc., which has the exact color of aigh grade Java coffee and turns to the rich golden brown of Mocha when cream is added.

It is said to be less acrid and bitter than the lower grades of coffee, but has much the mellow piquancy of the more expend to grades of Java and the Arabian berry.

This grain beverage never produces the unpleasant effect on heart or stomach and liver that is all too frequently the case with imported coffee, and while it looks and tastes like coffee, the originator expresses the wish that it be known is Postum Cereal, a food drink, and not as an imitation of any other heverage, coffee, tea, checolate, etc. This beverage is said to become very popular with those wto find it hard to digest coffee, and the children can be served with it as a liquid food, pure and nourishing, while to them it appears like berry coffee.
